you need to accomplish
your mission at the prices
you can afford.

Equipment for Impact

Our nonprofit program removes the barriers of access and budget so you can use Meraki equipment to manage your local and global networks without additional IT staff. Your offices will be fully equipped and connected so your mission and impact continue to grow.

From Our Nonprofit to Yours

Our equipment discount is open to nonprofits and NGOs. When you order through us, your nonprofit receives a 50% discount* on all Meraki equipment and licensing. Meraki equipment and their cloud-based dashboard are used by thousands of companies and nonprofit organizations around the world.

*or 75% off for our Bandwidth Aggregation Program participants

Finding the Right Fit

We coordinate with Cisco Meraki to allow your nonprofit organization to test Meraki products for free for up to 30 days with no commitment to purchase after the trial. Both our discount and trial include tools such as access points, security appliances, security cameras, and mobile device management to boost your NGO's efficiency. Find the right fit at telecom4good.org/equipment.
